Marden

Porcelain - considered stone textures

Marden brings together two interpretations of natural stone. Cairn and Shingle show layered, larger-scale mineral fragments, while Scree and Oat offer a quieter, gently clouded surface. Four coordinated greige and cream tones create a restrained palette for contemporary and traditional interiors, across floors and walls.

COLOURS

Cairn
Cool greige · V3

Shingle
Warm cream · V3

Scree
Soft greige · V2

Oat
Soft cream · V2

AVAILABLE FORMATS

600 × 600mm / 600 × 1200mm

Rectified porcelain. Slip performance and shade variation differ between the two surface groups.

Application: Interior floor and wall applications, subject to project suitability.

Marden

Colour-specific technical specification

SPECIFICATION TABLE

Size	Finish	Colour availability	Rectified	PTV EN 16165 Annex C	R Classification EN 16165 Annex B	Barefoot EN 16165 Annex A
600 × 600mm	Matt	Cairn, Shingle	Yes	-	R9	A
600 × 1200mm	Matt	Cairn, Shingle	Yes	-	R9	A
600 × 600mm	Matt	Scree, Oat	Yes	36+	R10	B
600 × 1200mm	Matt	Scree, Oat	Yes	36+	R10	B

Slip-test standards as declared in verified technical evidence: UK SRG PTV to UNE-EN 16165 Annex C; shod ramp R classification to UNE-EN 16165 Annex B; barefoot classification to UNE-EN 16165 Annex A. These are separate test results, not equivalent classifications.

SPECIFICATION NOTES

- Slip performance is colour-group specific. Check the rating for the colour being specified; do not assume a single rating across Marden.
- A dash indicates that no PTV result is stated for Cairn and Shingle in the technical evidence; it does not indicate a slip-resistance failure.
- For advice on selecting the most appropriate finish for your project, please contact Appleton Brooks.
- For thickness, installation or application-specific guidance, please contact Appleton Brooks before specification.
