

Reuben

Porcelain - glossy architectural minibrick

Reuben is a slim porcelain minibrick with a glossy, lightly three-dimensional surface that catches and reflects light. Its ten-colour palette moves from quiet neutrals to richer green, red and blue tones, giving designers a compact format for expressive wall compositions, curves and decorative niches.

COLOURS

AVAILABLE FORMATS

60 x 240 mm

Application: Wall coverings, including straight walls, architectural curves and decorative niches.

Finish-specific technical specification

SPECIFICATION TABLE

Size	Finish	Thickness	Colour availability	Rectified	V-Shade
60 x 240 mm	Glossy	8.5 mm	All ten colours	No	V2

No PTV, R classification or barefoot classification is published in the controlled Reuben evidence used for this datasheet, so no slip-resistance value is inferred or shown.

SPECIFICATION NOTES

- All ten colours share the same 60 x 240 mm Glossy porcelain product structure.
- For advice on selecting the most appropriate finish for your project, please contact Appleton Brooks.
- Current product guidance positions the collection for wall coverings, including straight surfaces, architectural curves and decorative niches.

ENVIRONMENTAL CREDENTIALS

Environmental Product Declaration

EPD available

Current product information identifies an Environmental Product Declaration for the manufacturing range.

Environmental management

ISO 14001

The manufacturing site operates under a certified ISO 14001 Environmental Management System.

Indoor air quality

GREENGUARD

Current product information lists GREENGUARD certification for the range.

Supporting environmental documentation is retained internally and is available on request where appropriate.
