

Sherwood

Porcelain - warm wood effect

Sherwood is a warm wood-effect porcelain collection with a natural oak character, soft tonal movement and realistic grain detail. The current Appleton Brooks Sherwood offer is presented in Honeysuckle and combines a 200 x 1200 mm plank with a 75 x 407 mm chevron, giving a flexible wood-look option for floor and wall schemes.

COLOURS

Honeysuckle

Warm natural oak

AVAILABLE FORMATS

200 x 1200 mm • 75 x 407 mm Chevron

Current Appleton Brooks scope includes a plank and chevron format in the Honeysuckle tone.

Application: Floors and walls.

Sherwood

Format-specific technical specification

SPECIFICATION TABLE

Size	Finish	Thickness	Colour availability	Rectified	R Classification	V-Shade
200 x 1200 mm	Matt	8.8 mm	Honeysuckle	Yes	R10	V2
75 x 407 mm Chevron	Matt	8.8 mm	Honeysuckle	No	R10	V2

Current controlled evidence supports the format, thickness, rectification, R10 classification and V2 shade variation shown above. No Pendulum PTV value is published for the current Sherwood scope.

SPECIFICATION NOTES

- The current Appleton Brooks Sherwood offer consists of one customer-facing colour, Honeysuckle, across two promoted formats.
- The 200 x 1200 mm plank is rectified; the 75 x 407 mm chevron is non-rectified.
- For advice on selecting the most appropriate format for a project, please contact Appleton Brooks.
